Chairman’s Message

Since its inception in 1995, the National Institute of Cooperative Management Trust has established itself as a premier Institution engaged in imparting quality management education. NICM is committed to enhance capabilities and potential of human resources with the objective of transforming them into leaders in their chosen areas of interest. Our vision is to strive for excellence, be globally competitive in management education and focus on knowledge generation, assimilation and dissemination.

NICM has carved a niche for itself among the best management institutes in India and is a dream institute for many budding managers. Our distinguished alumni occupy coveted positions both in India and abroad and are a source of pride and inspiration to us. My hearty congratulations to the faculty members, staff and students who strive to lead NICM to great heights.

Management education has undergone rapid strides and the opportunities for the management trainees are umpteen. We place on record the interest and co-operation of our recruiters and looking forward to having new partnership as well. Let one more placement drive of NICM accomplish early success, enabling our management trainees to obtain their dream jobs. I wish all our management students the very best in their life and career.
Managing Trustee's Message

Twenty years ago, the Gujarat State Cooperative Bank (apex Cooperative Bank of Gujarat State) established National Institute of Cooperative management Trust (NICM) with a vision of creating competent and caring professional with a passion to lead. Those of you, who had recruited talent from SJPI (Formerly NICM) in the past, will agree that the alumni validate the vision. Our institute is spread in 25 acres of green, energy efficient campus is, perhaps, the best infrastructure for a business school in the state. The faculty members are alumni of leading business school including IIM’s. They have several years of senior level worldwide experience in industry and business. Yet, in the classroom, they are not 'sages on the stage, but guides on the side', facilitating effective, real life learning by the participants. Our alumni have proved themselves in various roles in leading companies and these recruiters have returned for more. The list of recruiters and their testimonials appear elsewhere in this brochure. I am sure, you too will find the right talent for your immediate and future requirements in our campus.

I look forward to seeing you in SJPI-NICM Campus in the next few weeks.

Jayprakashbhai J. Patel  
Managing Trustee, NICM, Gandhinagar
Director’s Message

Dear Placement Partners,

It gives me great pleasure to invite your attention to this brochure and the details about our graduating class, our institution and our activities. We would be delighted if you were to visit our campus and see first-hand what we have put together, and our directions for the future. We develop global managers and leaders who are especially comfortable in the emerging markets of the world. One of SJPI’s strengths is its highly accomplished faculty, most of whom have doctoral degree and decades of work experience. They are able to provide SJPI students with first-hand knowledge of how business works both in India and abroad, and thus our students get the advantage of a national and international perspective. Our institute has presence of international links and we have students from Afganistan, Myanmar, Srilanka and Tanzania, which means that our students are familiar with cultural diversity. SJPI also incorporates international projects, projects in nationally repute companies as well as a projects related to rural systems through its industry internship, Global Country Study Reports as part of the curriculum, so that students are exposed to diverse sets of national and international scenarios.

SJPI believes that the good managers must be allrounder, ethical and multi-dimensional. Therefore we encourage our students' extra-curricular activities especially those that require organisational skills such as seminar management contests and so forth. I am delighted to present our students; I trust that you will find them capable and appropriate for your company; and I hope to have a long term and mutually beneficial relationship with you.

The purpose of two years' regular MBA course is to equip the students with required skills and knowledge to work as a team toward common goals. As a management student it is essential to gain industrial experience for empirical learning. Acknowledging this, SJPI mandated its students to pursue summer internship for six to eight weeks after the completion of first year. Within a stipulated duration of eight weeks, summer internship endows the students to envisage corporate attributes both relating to methodology and operations. On the completion of the internship, students are required to present a report comprising of various management applications they learnt during the internship, followed by a class presentation. More over, the final year students have to do empirical research in the form of Grand Project. The students are groomed by their faculty guide on a continuous basis during the above research.

The academic rigor and the rich corporate exposure at SJPI(NICM) ensure the students with vigor to excel in their performance. It is our consistent endeavor at SJPI to equip the future managers with the essentials of industry. We harness and channelize the latent potential of our budding Management professionals to fit with the demands of the corporate. They possess the conviction and commitment to leave their imprints with their excellent exhibition of their grandeur. With a proper environment for scholastic excellence, we persuade our students to challenge the age old principles of business by developing a rational approach towards new management paradigm. The understandings of local market intricacies, human psychology and ability to see beyond the obvious have been the major differentiators of this batch. Over the years, our rich blend of students has managed to excel in the industry and the belief has been reinforced by the tremendous faith of recruiters in offering our students such diverse and key roles in the organizations. We are sure that this batch of young professionals will definitely stand out with panache for excellence and leadership. We would also take this opportunity to thank the industry for their unflinching support and constant patronage that SJPI has enjoyed. We look forward to experience the same synergy in the future.
